Re: WC Docket No. 05-196  
911 Compliance Status Report

Dear Ms. Dortch,

In accordance with the Federal Communications Commission's (Commission) March 12, 2007 letter requesting a 911 status report from certain interconnected Voice over Internet Protocol (VoIP) service providers, including D&E Networks, Inc. (D&E), because their November 28, 2005 Compliance Letters indicated that they were not, or had not provided sufficient information to indicate that they were, providing fully compliant 911 service to 90 percent or more of their subscribers pursuant to the rules adopted by the Commission in its VoIP 911 Order, D&E submits this 911 Compliance Status Report.

**Provision of Compliant 911 Service:** D&E is currently able to provide 911 Service in full compliance to 93.1% of its subscribers, pursuant to the rules established by the Commission in its *VoIP 911 Order*.

**911 Coverage:** Based on the Commission's Enforcement Bureau's request for a status report dated March 12, 2007, D&E is positioned to provide fully compliant 911 service to over 90% of its subscribers, pursuant to the rules adopted by the Commission in its *VoIP 911 Order*, in D&E's fourteen county service area in Pennsylvania. *See Exhibit 1 for map of regional service area.*

**911 Routing Information/Connectivity to Wireline E911 Network:** As mentioned above, D&E forwards the Registered Location information (ALI) for 100% of its VoIP customers to the appropriate ALI database provider for each county. All 911 calls are routed to the appropriate PSAP. 93.1% of our subscribers are routed via the Wireline E911 Network using traditional MF trunking, and ANI presentation. The remaining 6.9% of our subscribers are routed via the public switched telephone network using Caller ID for number delivery to the PSAP.

**New VoIP Customers and/or Marketing of VoIP Service in Non-Compliant Areas:** D&E is a regional Interconnecting VoIP provider in a fourteen county region in Pennsylvania. D&E has and will continue to commit to not accepting and processing new customers in areas where it cannot provide 911 service pursuant to the rules adopted by the Commission in its *VoIP 911 Order*. Accordingly, D&E does not accept or process any service orders for new customers for its VoIP service if they are located outside its fourteen county service region.

Please contact John Rutkowski at (717) 738-8607 if you have any questions. Thank you.

Sincerely,

A handwritten signature in blue ink that reads 'Jeanne Price'.
